

POLAND CHEERED BY U. S. GOVERNMENT'S NOTE TO ITALIANS

Purpose of Statement Discussed in Diplomatic Circles—Poland in Dire Need of Funds Will Seek to Develop What U. S. Means in Italian Note That it would "Employ All Available Means" to Maintain Free Poland

WASHINGTON, Aug. 11.—(By The Associated Press.)—Poland, its back to the wall, in its fighting against Soviet Russia, will ask immediate material aid of the United States, it was announced today by Prince Lubermirski, the Polish minister. More than that, it will seek to develop precisely what the American government meant by the announcement in its note yesterday to the Italian government that it would "employ all available means" to maintain a free Poland.

Expressing complete satisfaction of the American note the minister declared he was convinced that it would inspire Poland with a new spirit of hope. He added that his country was sorely in need of war materials of all kinds and that it probably would first seek credits from the United States with which to purchase them.

The War Prospect.—Simultaneously with the minister's announcement the legation made public a proclamation issued by the Polish council of national defense at Warsaw warning the nations that a new world war hangs over the world and that if Poland should be crushed by the Bolsheviks it would be due to the "indifference of a world which calls itself Democratic."

Copies of the American note, it was said today, have been delivered to the representatives of the allied and associated powers and distributed to the news centers of the world, promising its widest dissemination even in Russia. Diplomatic circles generally regarded the document as having a three fold purpose:

FIRST: The extension of moral support to the Polish government and people.

SECOND: An appeal to the heavy Russia to throw off the Bolshevik yoke and establish a constitutional government.

THIRD: The influencing of other nations to refrain from recognition of the Soviet regime.

Conferences Held.—The despatch of the note followed a series of informal conversations between officials of the state department and the Italian legation in Rome in the course of the negotiations between the two nations preliminary to the Hythe conference the Italian government had made it known that under no circumstances would it be ready to enter any engagement to go to war with Soviet Russia.

In Italian circles today it was declared that, regardless of the heavy pressure exerted by the Italian Socialist party and the workmen in favor of the establishment of friendly relations with the Soviet regime the Italian government had not finally decided upon a policy beyond the determination not to be forced into war with Russia. While Italy has sent a commission to Moscow and was about to receive a Soviet commission to Rome it was expected that the purpose was simply to ascertain exact conditions prevailing in Russia and that the Italian government had not committed itself to a recognition of the Lenin administration.

Effect of the Note.—In diplomatic circles here it is expected the American note will have far-reaching results upon the attitude of many governments which have not assumed final positions regarding the Polish and Russian question. Some diplomats feel that even the governments which already have discussed the subject may find their future course affected by the position taken by the United States and they held a conference which was to have dealt with the Soviet delegates with the possibility of political recognition of the Bolsheviks has faded into improbability.

Administration officials expect a response from the allied governments. This based upon the statement in the note that the United States would "regard with satisfaction" a declaration that territorial integrity and true boundaries of Russia shall be respected; that such a declaration presupposed the withdrawal of all foreign troops from Russian territory and that it should be accompanied by the announcement that no transgression of the Russian boundary line would be permitted.

Exchange With Japan.—While no specific mention of Japanese occupation of parts of Siberia was made it was the general belief that in his reference to the withdrawal of foreign troops from Russian territory Secretary Colby had chiefly in mind the Japanese forces in Siberia.

Exchanges with Japan on this subject now are in progress. The American government is understood to be particularly concerned about the intention of the Japanese to occupy the upper half of the Island of Saghalien and Vladivostok and recently sent a note of protest to Tokyo. A reply to this is expected soon.

PROHIBITIONISTS OFFICIALLY NOTIFY THEIR CANDIDATES

**Watkins and Colvin Make
Speeches of Acceptance**

**ENFORCEMENT OF
VOLSTEAD ACT ISSUE**

GERMANTOWN, O., Aug. 11.—Before an enthusiastic crowd of neighbors, admirers and party adherents that overflowed the athletic field at Miami Military Institute here tonight, Rev. Aaron S. Watkins, standing bearer of the prohibition party and D. Leigh Colvin, his running mate, formally accepted their nominations, both asserting enforcement of prohibition laws and especially the Volstead act are vital issues of the campaign.

To us the supreme question is not equal suffrage, the league of nations, labor, Mexico, Armenia, nor any of the minor questions on which all agree, but the entire enforcement of the liquor traffic, said Rev. Watkins in his acceptance speech.

Notwithstanding that we have no prohibition in the constitution, both political party conventions have refused to assume the responsibility of the maintenance of the Volstead enforcement law without which the constitutional amendment is impotent, declared Mr. Colvin.

Mr. Watkins favored signing the peace treaty at once with whatever reservations and amendments that may be possible, declared in favor of a mandate over Armenia, if the United States is requested, urged intervention in Mexico, if peaceful arbitration fails and declared in favor of the establishment of an industrial court for the settlement of labor questions.

The prohibition party, he said, has always been in favor of equal suffrage.

The two mediation boards adopted separate but concurrent resolutions declaring the return of the strikers, estimated to number approximately ten thousand, was necessary in order that the public coal supply might not be jeopardized. Both boards held that an agreement entered into by the mine workers last March to remain at work pending adjustment of the wage scale.

PONZI NOW ADMITS PAST RECORD NOT WITHOUT BLAME

**Once Served Term in
Prison for Forgery
Charge**

**TRUST COMPANY BANK
IS ORDERED CLOSED**

BOSTON, Aug. 11.—Charles Ponzi, who has handled millions of dollars of other people's money in the last few months, confessed today that he was a former convict. While making this statement, the Hanover Trust Company in which Ponzi was a director and a shareholder and through which he had done a large checking business, was closed by order of Bank Commissioner J. C. Allen. Ponzi at the same time announced his resignation as a director.

Commissioner Allen said he had taken action because his examination had found the bank had made loans which "were excessive and beyond the legal limit," and "many loans that are either bad or very doubtful."

He expressed the fear that the bank's capital had been impaired. The executive committee of the Hanover Trust Company in a statement late today said the committee believed there were few poor loans on the bank's books and that there was no reason to believe the bank would not continue to meet its obligations and that it had a cash reserve of three times the amount the law requires. William S. McNary, said Ponzi did not owe the bank a cent and that Ponzi had paid out six million dollars thru the bank.

Old Stories Revived.

Ponzi's confession followed publication today of stories of the career of "Charles Ponzi" in Montreal. Confronted with these stories, Ponzi conferred with his attorneys and then gave out a lengthy statement in which he admitted that he and "Ponzi" were the same man, that he had served twenty months in prison in Montreal for forgery and that subsequently he had served two years in the federal penitentiary at Atlanta for smuggling Italians into this country.

He asserted that his sentence for forgery resulted from him assuming the blame for a crime committed by a banker in Montreal by whom he had been employed and who had fled to Mexico.

"I am not trying to pose as a hero," he added. He denied the smuggling charge, saying: "Within ten days of my release (from the Montreal prison), I was asked to escort five Italians into the United States. I did not smuggle them in. I crossed the border lawfully and was placed immediately under arrest."

He said he had not previously made known these incidents in his career because he felt that the "past had very little bearing on the present situation."

"If I made a mistake, I paid for it," he said. "I had every reason to believe that society owed me another chance."

Still Claims Solvency.—Ponzi in a latter statement reiterated that he was solvent and could pay all notes outstanding against him as a result of his operation of the securities exchange company. It was large business done by this company that resulted in investigation now in progress.

Last Monday the bank commissioner ordered the Hanover Trust Company to pay no more checks drawn by Ponzi or his agents, announcing that it had been discovered that Ponzi's account, entered in the name of a trustee, had been overdrawn. Ponzi then discontinued the payment of notes.

Three creditors, with total claims of \$750, filed a petition in bankruptcy against Ponzi on the same day. They alleged that he had made preferential payments to other creditors.

On Monday also Attorney General Allen gave out a statement of some of the results of his investigation. He said he had been unable to find anything to verify Ponzi's claims of extensive dealings in international postal reply coupons.

The report of the federal auditor has not yet been filed. A subpoena issued in the bankruptcy proceedings is returnable on August 16.

**Former Governor Willis Was

**SAYS MUST GET BACK
ON RIGHT TRACK**

MARION, O., Aug. 11.—Senator Harding had only a few appointments today, most of the day being reserved for personal and family matters. He had been invited to a party at Worthington, Ohio, in honor of his brother, Dr. George T. Harding, Jr.

Former Governor Frank B. Willis who was a candidate for the Republican nomination for United States senator in the Ohio primaries yesterday called on Senator Harding this morning.

"The primary campaign in Ohio has been very animated," said Mr. Willis, "but no personalities came in at any time. I don't think there will be any uncomfortable feeling anywhere. The party is in excellent condition to back the ticket and there will be no disaffections growing out of the primary."

Get Back on Right Track.—Worthington, O., Aug. 11.—"To get back on the right track," nationally and internationally was declared by Senator Harding in a speech here late today to be the supreme problem facing the world.

"There is just as much menace in the world today," said he, "as there was in the turbulence of the war. Civilization has not yet settled down. I want America to settle down and to stand as a barrier to revolution and disorder throughout the world."

WARSAW SITUATION SHOWS LITTLE CHANGE

PARIS, Aug. 11.—The situation of Warsaw is little changed, judged from the scant news reaching Paris tonight.

It seems that the converging movement on the capital has made only slight progress and that the greatest danger lies from the north. The Danzig-Warsaw railroad is now cut on a length of 30 miles and the Bolshevik cavalry continues to creep along the Prussian frontier. The Reds are advancing west of the middle Bug river.

The action of the Soviet government in not replying to the Polish note of August 5 regarding an armistice, but at the same time sending delegates to the Polish line, has strengthened the conviction here that the Soviet either has no intention of making peace or is determined to put off negotiations as long as possible and throw the blame for the delay on the Polish government.

SUFFRAGE VOTE IN TENNESSEE IS TO BE TAKEN FRIDAY

**Both Branches of Leg-
islature Will Vote
on That Date**

**CROWDED GALLERIES
HEAR DEBATES**

NASHVILLE, Tenn., Aug. 11.—Chairman Riddick, of the house committee of constitutional conventions and amendments to which was referred today the joint resolution providing for ratification of the federal woman suffrage amendment announced late tonight that the lower branch of the Tennessee legislature would vote on ratification Friday. At the same time, Speaker Todd of the senate stated that the upper house also would act that date.

Representative Story of White county late today introduced a joint resolution which, if adopted, would prevent action either for or against passage or rejection. It went over until tomorrow.

Suffrage advocates and opponents from other states here were targets of a joint resolution offered by Senator McFarland, a Democrat, an opponent of ratification, asking the lobbyists "to please go away and let us alone—we would much prefer your room to your company."

Nashville, Tenn., Aug. 11.—Suffrage forces were victorious today in the first skirmish of the battle for ratification of the federal woman suffrage amendment by the Tennessee legislature. A joint resolution which had for its object postponement of action until Aug. 24 in order that Tennesseeans in mass meetings throughout the state on Aug. 21 might express an opinion for or against ratification was tabled in the house by a vote of 50 to 37 after a debate which at times aroused the members and the crowded galleries to enthusiasm.

The joint ratification resolution in each house was referred today to the committees on constitutional conventions and amendments which announced that a joint hearing would be held tomorrow night. It is hoped to dispose of the question by Saturday night.

KANSAS MINERS WILL GO TO WORK

PITTSBURG, Kan., Aug. 11.—Several thousand Kansas coal miners, who have been idle for two weeks in protest against penalties imposed by operators for observing a five day week, will return to work immediately. It was announced tonight by Alexander Howat, district president of the United Mine Workers, the miners, Mr. Howat said, were not going back at his direction but upon their own accord under protest.

Various local unions in the state are holding meetings and adopting resolutions condemning John L. Lewis, international president, for interfering in the Kansas situation and pledging support to their district president, Howat declared.

The international executive board investigating committee sent to the Kansas district by President Lewis, left for Indianapolis tonight after completing its work. No statement was forthcoming and the results are problematical.

FORMER PYTHIAN OFFICER NOW BEING SOUGHT IN CHICAGO

**Paul J. B. Haverly is Report-
ed to Have Been in
Chicago**

**ALLEGED TO BE
SHORT \$52,000**

CHICAGO, Aug. 11.—Paul J. B. Haverly, former grand keeper of the records and seals of the Illinois Knights of Pythias lodge, who disappeared more than a year ago after a shortage of \$52,000 was discovered, was being sought here tonight after police had received word he was in the city.

His wife, who conducts a registry for nurses and one of the nurses were taken into custody but released after being questioned.

Mrs. Haverly was taken when she withdrew \$1,000 from a safe deposit box.

Mrs. Helen Fleming, a nurse, told police Haverly had spent several days at his home here in June while his wife was away.

"He was present one day when police came and told me of a \$1,600 reward for his capture," she said. "While we were talking he stood at the top of the stairs, out of sight of the police, with a gun pointed at me and I dared not say he was there."

BRITISH MAY NOT BE IN OLYMPIC GAMES

**Lack of Interest One of Reasons
Also Said to Be Dissatisfied
With Interpretation of Amate-
ur.**

London, Aug. 11.—Withdrawal of Great Britain Olympic contests after the Antwerp meeting is being seriously considered by the British Olympic committee. The question is said to be under debate and the general opinion of leaders in the sporting world appears to favor the step.

The proposal undoubtedly has been brought about by the general lack of interest in the Olympic games shown by the British. Newspapers and the public appear indifferent towards the Antwerp meeting and the response to appeals for funds has been small.

The great expansion of the Olympic program since the games were instituted at Athens in 1896 is thought to be the reason for the decline of interest. The Olympic games now include a large and varied range of contests, some of which are unknown in Great Britain. As a result of the last meetings at London in 1908 and at Stockholm in 1912, the feeling "is declared to have grown that the games have benefited far from their original ideal of providing international contests of amateurs to promote friendship. Different countries have varying requirements for amateurs, and from the British viewpoint the athletes of certain nations, who are supported during long training periods by government subsidies cannot be considered amateurs."

ROOSEVELT SAYS OLD GUARD IS RULING G. O. P.

**Candidate for Vice
Presidency Heard
in Chicago**

**SAME OLD CHARGES
AGAINST REPUBLICANS**

CHICAGO, Aug. 11.—Franklin D. Roosevelt, Democratic candidate for vice president, opened his campaign here tonight with the first speech he has delivered since he accepted the nomination last Monday.

Before a crowd of 3,000 at the Auditorium Theater he urged Republicans and independents to join the Democrats in support of the platform adopted at the San Francisco convention and of the ticket nominated there. He told Republicans their party had been split by a quarrel among the leaders and that the faction represented by Senator Harding was the old guard which Theodore Roosevelt had opposed.

Seven hundred women were given the places of honor on the stage.

The great issue before the Democratic party "is not what America will do for Europe, but what the citizens of the United States are going to do for America," James Hamilton Lewis, former United States senator and candidate for the Democratic nomination for governor of Illinois, declared, speaking from the same platform with Mr. Roosevelt.

Same Old Charges

Mr. Lewis assailed the "senate syndicate of select senators, who named the ticket of Harding and Coolidge" and declared the "scheme of the Republican masters is to get control of the United States."

It is his purpose, he said, to get into power and then pass legislation that will entrench eastern financial favorites in the government and place in their hands all the privileges and favors that the republic provides for its national citizenship.

Mr. Lewis asserted the Republican attack on the league of nations was a subterfuge designed to disguise the true aims of the party and that the substitute league plan they propose "carries with it every evil doubled and redoubled that is ever charged by the league proposed by democracy."

Mr. Roosevelt's address follows in part:

"Tonight we are firing the opening gun of a battle of far-reaching importance, and once again the shots are going to be heard around the world—for the action of the American nation this year will be watched with anxious eyes by all civilization. First of all, Governor Cox and I believe that it is the simple duty of the candidates to give to as many citizens as possible in as many states as possible an opportunity to see and hear, and form their own impressions of the men they are to vote for. In this connection, too, it is only frankness to say that the great majority of the newspapers through the country are owned or controlled by men affiliated with the Republican party. It is therefore, doubly necessary for us to present our views and our aims in person.

A Change Offered—The Democratic party offers not a change but 'the change'; its platform pledges a definite program of constructive measures, not a hodge-podge of vague compromises; a definite foreign policy for immediate and permanent peace not an underlined suggestion or new and unworkable schemes; a pledge that the safeguards of workingmen and women already accomplished under Democratic leadership shall remain intact and that the Republican change will restore to power the influential few.

"Above all, let us unite, Democrats, Republicans, Independents from north and south and east and west, to explode shams of partisan narrowness, to grasp our true issues, our true problems without broad vision; to insist on progress and action, and to work unceasingly for individuals for the betterment of our nation."

General C. Herbert de Fosse of New York, an authority on international questions, says: "President Wilson failed in his international dealings because he has neither an international mind nor a knowledge of international affairs."

Henry C. Wallace, of Des Moines, Iowa, publisher of an agricultural paper, says: "The farmer has suffered fearfully under the Wilson administration, especially the livestock producers. An intelligent agricultural policy would have greatly protected the farmers."

AN EFFECTIVE METHOD.

A Kansas City jury after being out twenty minutes returned a verdict fixing the penalty of a pay roll handit at 50 years in the penitentiary. If a few sentences like that could be imposed in the cities where the depredations are taking place it will not be long until this holding up of cashiers and pay roll officers becomes a very unpopular sport.

THE RIGHTS OF OTHERS

Attention has been called to frequent violations of the city ordinances relating to the burning of leaves or rubbish. These

violations occur thru thoughtlessness but that fact does not prevent the annoyance resulting from smoke and offensive odors.

The burning process should not be carried on in the late hours of the afternoon or in the evening, for when this is done you spread discomfort and trespass upon the rights of fellow citizens.

THE PAST CONFRONTS HIM.

It may be unfair to dig up the past of a "successful business man." However, even Mr. Ponzi must admit that a man who has been convicted of forgery and served a penitentiary term is not just the man that would ordinarily be chosen to handle millions of dollars belonging to other people.

IT TAKES MONEY TO RUN WARS.

Poland warns that unless the allies come to her aid that a new world war will develop. There will no doubt continue to be strife and bloodshed in parts of the world. However, it is an accepted axiom that war cannot be waged without money.

Several of the great powers are exhausted from the war and it will be many years before they again have their normal financial standing. The country therefore need not fear another war struggle at any early date. Dollars are even more essential than artillery and aeroplanes for war operations.

THE FIRST DUTY OF GOVERNMENT

"The first duty of a government is to be true to itself," reminds Gov. Coolidge, referring to the tendency of the present day to abandon national welfare for experiments in world reformation. "This does not mean perfection," he says. "It means a plan to strive for perfection. It means loyalty to ideals." The ideals of America were set out in the Declaration of Independence and adopted in the Constitution.

tion. They did not represent perfection attained, but perfection planned. The fundamental principle was freedom. The fathers knew this was not yet apprehended. They formed a government firm in the faith that it was ever to press toward this high mark."

FOR MUTUAL BENEFIT

As a result of a conference held between the state officials and the officers of South Jacksonville, last night, an agreement has been reached whereby coal can be hauled over the tracks of the street railway company to the company's plant or to state institutions.

While no contract has been made, it is very likely that such a contract will be closed at an early date. The village officers declare their wish to co-operate as cordially as possible with authorities of the state and of the city of Jacksonville in making possible this arrangement. All parties concerned will be largely benefitted if the arrangement is made. The state and the railway company will profit in the hauling savings and large profit will also accrue to the people of Jacksonville in the saving of wear and tear on the street pavements.

PUZZLING PROBLEMS.

These are days when in addition to other unrest there is uncertainty in commercial circles. In some lines there is overproduction and in others the demand exceeds the supply. It is a puzzle to be a commonly known fact that for months past supplies of certain kinds have been kept off the market, just because of the fear of what conditions might result if all productions available were turned loose at one time.

Eventually all these goods must go on the market. There are certain lines of big business today that are being operated at a loss, but the proprietors are unable to change either buying or selling prices because of the big stocks on hand. If they cut prices these same big stocks will be involved.

Big business men and those of smaller means have puzzling questions these days. But if nobody rocks the boat and the people act wisely on their election choices, these conditions can be straightened out and the country get down safely to a normal basis.

THE ELOQUENCE OF ROOT

Without doubt every visitor in the devastated regions of Europe stands aghast even now at the evidence of ruthless destruction. But it is not every observer who is able to express his sentiments and feelings with the vivid eloquence that marked the recent utterances of Elihu Root, when he returned from a tour of inspection.

He is quoted as saying in part: "On the edge of the Forest of Argonne, near the ruins of Nanterre, I saw a great American Army. It was camped for eternity. There they were 28,000 strong, drawn up for a review in which generations of the future will pass in reverence, 28,000 white crosses stretched their arms above the immaculate field which equalizes all those it covers with its green carpet."

"Over at St. Mihiel, at Verdun, at Chateau Thierry and twenty other places in the shadow of the same white crosses lie the sons of the great sister-nation of France. The French bow before these graves with the greatest piety. "Each turn in this devastated land, cemeteries meet the gaze. Here are dark crosses planted upon graves of valiant English men. Again there are the dead of Italy's army. All these crosses seem to declare to heaven with their stretched-out arms fidelity for eternity."

"But what are the living doing?"

"A CUMBERLAND ROMANCE"

Clayton, the young civil engineer from the city, had no thought of making love to Easter, the Mountain maid. But Easter loved him and with the astonishing frankness of a child, she told him so. What was he to do? She was lovable, you know. And he was only human and very, very lovable in that strange region. What would you have done if you had been in his place?

Hired Help.

We used to have a stately butler, a most impressive gent alive, a major-domo and autocrat, and proud domestics four or five. Before the war they did their duties as good retainers ought to do; they seemed to us a bunch of beauties who well deserved the wages they drew. But since the times became unsettled they tried to travel on their gall, and they became so highly motified we had to can them, one and all. And now my wife does all the cooking, and I, beset by the fire and the lawn. About my household tasks I scuffle, so gay, carol songs aloud, and I'm convinced that I can butle as well as any hiredling proud. My wife is singing "Annie Rooney" and other good old songs of yore, before song writers all grew looney, as she mops up the kitchen floor. Without hired help my heart is bubbling with harmless mirth, that makes a hit; my days no more are filled with trouble, for fear some piece are burned, the bread is soggy, the meat comes smoking from the stove, but I'm glad I'm feeling groggy, because we fired that grouchy drove. I do not care two jots or tittles what people say of us in town; far better live on ruined vittles than wilt beneath a servant's frown.

Burns Sustained By Mrs. Theodore Placke Three Weeks Ago Result Fatally — Bluffs News Notes.

The accident occurred at the home of the deceased near Oxville but she was later removed to Bluffs where closer medical attention could be rendered. Deceased was 29 years of age, and besides her parents and husband, she is survived by one daughter, Evelyn, eight brothers and two sisters, Fred Kilver, Denver Colo.; Henry, Frank, Herman, Gus, Walter, William, Martin, Mrs. William Gunther, St. Joseph, Mo., and Mrs. William Morthole, Chapin.

HOUSES FOR SCHOOL MEN VERY SCARCE

Frank Phillips a former resident, was a visitor in Jacksonville yesterday. Mr. Phillips who has been assistant principal of the Bloomington high school for the past nine years, will serve as principal of the Monmouth high school this year.

This statement possibly should be made conditionally, for Mr. Phillips is intending to move to Monmouth if he can find rooms or a house there, a task which seems well nigh impossible. Mr. Phillips expressed the belief yesterday that unless conditions change in the course of the next year, the boards of education will find it advisable to keep possession of residence properties which they can sub-let to non-resident members of their teaching force.

There have been a number of cities this year where the teachers have cancelled contracts just because of their inability to secure either houses or rooms in the cities where they had planned to teach.

MANY ATTENDED BROOKLYN BURGEO

The Brooklyn church burgeo was a grand success yesterday. The ladies were prepared for a large crowd but more than were expected came for dinner and kept coming all day so that by 7 p. m. the last bowl of the 175 gallons of soup was gone as was the last of the sandwiches, the pie and ice cream and cake.

The soup was made by Mrs. Emma Taylor of Woodson and was pronounced A No. 1 by everyone. Large tarpaulins were stretched over the tables and furnished a shady place to eat.

At noon when the tables were full and all the workers busy the young ladies who were assisting in the work called a "strike" and held up dinner until they had been witnesses at the wedding of H. M. Bryman of Franklin and Miss Bertha O. Buck of Scottville who had come to the paragonage to be married by Rev. G. W. Randle.

Also tomorrow and next day, when you are to go to ZAHN'S AUTO INN, where the AMERICAN Legion is having its big doings, to see about getting those tires we've been telling you about and to wait for. Don't miss this chance.

TERRIBLE TASTE

REMOVED FROM CASTOR OIL

New Process Removes Old Reliable Family Remedy of Disagreeable Taste

The chemists of Spencer Kellogg & Sons, Inc., one of the largest manufacturers of castor oil in the world, have perfected a remarkable process by which all nauseating taste is removed from castor oil. In the opinion of physicians and druggists who are already familiar with Kellogg's Tasteless Castor Oil, this remarkable improvement is a real blessing. It's the same old-fashioned castor oil that every physician prescribes. It's 100% pure castor oil. But that nauseating taste has been eliminated. Strength and purity remain the same. Today you can take Kellogg's Tasteless Castor Oil easily. Children take it without coaxing or bribing. Do not accept substitutes. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c, and 65c.—Adv.

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and any one who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arecine and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a word of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous run-down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel better, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

"RAIN"

BY Louise Quintal

"The days are hot and dusty. Not a drop of rain in sight. But it's wrong for us to grumble 'Cause things don't go just right."

"Most every day we hear folks say 'Mayoe it will rain today.' Then in the west the bright sun sets

Without a cloud to mar its ray. Don't worry, but with patience wait.

It will pour down right some day. The flowers will smile, the grass turn green

And the world will go 'round the same old way.

The clouds of dust that fill the air 'Will vanish it seems, away to nowhere,

But just for a day to enjoy such bliss, Then out comes "Mr. Sun" with his same old glare.

THE GARNER JUBILEE COMPANY

In this company is embodied all that is best in the field of jubilee singing. Prof. Garner is a finished musician, and his company is of the very highest character. The programs are arranged with unusual skill and taste, and tireless energy and minute attention to details has rounded it to a point of perfection.

A musical authority, well known to most of us, says: "I was cradled in the American folk songs. I lived in the South and listened to these songs in the nursery, in the cabin and on the cotton plantation. I have never heard such wonderful interpretations of these wonderful old songs and operatic selections, and have never heard anything, anywhere to surpass the Gardner Company."

A WONDERFUL HELP

At Two Stages of Life Lydia E. Pinkham's Vegetable Compound Made Mrs. Fairburn Strong And Well.

Chattanooga, Tenn.—"I used Lydia E. Pinkham's Vegetable Compound before my baby came when I could no longer keep up. It strengthened my back and relieved me of the dropsical effect which so often develops at such times. It helped wonderfully. That was my first experience with the

Vegetable Compound. Years afterwards I took it during the Change of Life and got along so well I scarcely ever had to lie down during the day and seldom had dizzy fainting spells. I am now well and strong, can do all my housework with perfect ease and it is a comfort to me to be able to say to other suffering women 'Take Lydia E. Pinkham's medicine and be strong.' I will be glad to have you use my name if it will be the means of helping any one."—Mrs. R. A. FAIRBURN, 606 Orchard Knob Avenue, Chattanooga, Tenn.

For forty years this famous root and herb medicine has been pre-eminent successful in controlling the diseases of women. Merit alone could have stood this test of time.

Why you should use a National Vacuum Washer

BECAUSE: It washes much quicker, does it much cleaner and with a great deal less work to the operator.

WHY DOES IT WASH QUICKER?

BECAUSE: The rapid action of the dasher driving the hot water and suds through the soiled clothes forces the dirt out. The agitation of the hot water makes the dirt respond immediately. Two to six minutes will remove the dirt from any fabric that can be cleaned with soap and water.

WHY DOES IT WASH CLEANER?

BECAUSE: By the vacuum principle the dirt is all forced OUT instead of rubbing part of it into the fabric.

WHY WITH LESS WORK TO THE OPERATOR?

BECAUSE: By the vacuum principle it requires only power to handle the water, not the clothes. This eliminates the wear on the fabric and makes the machine run much easier.

In order to fully appreciate the real value of THE NATIONAL VACUUM WASHER, YOU MUST GIVE IT A TRIAL.

COX WILL PRAISE OHIO SOLDIERS FOR WORK IN WORLD WAR

Will Present Governor's Cup for Rifle Competition

RECEIVES WORD THAT TENNESSEE WILL RATIFY

COLUMBUS, O., Aug. 11.—Governor Cox came here today and mapped out the address he will make late tomorrow at Camp Perry, Ohio, the first speech in the nationwide campaign he has decided to pursue. The part the national guard and other citizen soldiers played in the war is to be the main theme of tomorrow's address in presenting the Ohio governor's cup to the winner of the National Rifle Shooting competition at Camp Perry.

The governor also plans to

shoot a few target rounds himself.

Because of road conditions Governor Cox today abandoned his plan of motoring from Columbus to Camp Perry, about 125 miles and incidentally, prevented a meeting of the Democratic and Republican presidential nominees. The governor said he had planned to call on Senator Harding at Marion, which is on the automobile route to Camp Perry. Governor Cox late today received word by telephone from Governor Roberts of Tennessee that it appeared probable the Tennessee legislature would ratify the federal woman suffrage amendment. Governor Roberts said a favorable vote in both branches of the legislature next Friday was in prospect in view of the test of strength today.

VILLA WATCHED PERSHING EXPEDITION

Was Lying in Cave Wounded When Americans Were in Mexico—Refuses Interviews with Newspapers.

San Pedro, Coahuila, Mexico, Aug. 11.—Via Laredo Junction.—(By The Associated Press).—Francisco Villa, surrendered bandit, was in a talkative mood today.

Choosing the veranda of a ranch house at the conclusion of a dinner where he and aides were guests, the ex-chief explained to the on the policies he now desires it expedient to pursue and held his hearers intent with tales of his maneuvers which kept him from capture at the hands of the Pershing punitive expedition in 1916.

He refused interviews with American newspapermen and poses for American motion picture photographers, declaring he knew "much money would be made from the interviews and films."

Villa once more confirmed reports that he was wounded. He declared, however, that his wound came during a fight with Carranza's men five days after the Pershing expedition entered Mexico and that his leg was also broken in three places. His wound and suffering, he said, came in the midst of his efforts to organize a great band of followers to attack the Americans. He declared he had picked twelve hundred followers to spread propaganda and intended to arrange a great uprising against the punitive expedition.

He was confident, he insisted that he could have equipped at least 8,000 recruits with rifles and the others to carry knives two feet long.

"I never left the state of Chihuahua while Pershing was in the country," he boasted.

"After being wounded, two of my cousins carried me to a cave in the mountains. The cave was located in the center of a perpendicular cliff which rose fifty meters from a brook on the level plain below."

Villa said he lived in this cave for five weeks and often saw American soldiers on a hill top two hundred yards across the brook.

Final disarming and pay-off of Villa and his men will probably take place at the small town of Tlalahuatl, a railroad stop near the Chihuahua line instead of Torreón Gomez Palacio.

WE ARE NO STRONGER THAN OUR FIGHTING BLOOD

Physical Fitness Our Sole Reliance

Courage without physical fitness is absolutely worthless. That is why our great army was made up of men who were without the slightest physical defect.

But there is a constant warfare closer home, that you are vitally interested in. It is the warfare of disease against your health. A struggle that is always going on, and one for which you must always keep your system prepared.

And your blood supply is the fortress upon which you must depend. If it is kept pure and free from any weakening influence, the germs of disease cannot find lodgment but are promptly expelled and good health is assured.

But you should take no chances with this mainstay of defense. Impurities are liable to creep into your blood and so weaken your system that it is unable to resist even the most ordinary ailments. This means the beginning of the attack which will result in the undermining of your health.

S. S. S., the world's most renowned blood remedy, will tend to keep the blood absolutely pure and free of impurities. This great old remedy, which has been in constant use for more than fifty years, keeps the system in perfect blood and cleansing it thoroughly, condition by tending to purify the blood.

LARGE ESTATE IS LEFT IN TRUST

WILL OF ARTHUR L. FRENCH PLACED ON RECORD

Farmers State Bank & Trust Company is Named Executor, Trustee and Guardian—Estate to Remain Intact for Fourteen Years.

The will of the late Arthur L. French, until his death president of the Farmers State Bank & Trust Co., was filed for probate Wednesday afternoon in the office of County Clerk G. L. Biegs. The will, which is quite lengthy, was drawn July 7, 1914, with John Onken, Henry Perbix and Arthur Coulson as the witnesses to the signature. The Farmers State Bank & Trust Co. by the terms of the will becomes the executor, trustee and guardian. The will was drawn before the death of Mrs. French and if she had lived she would have been a co-trustee with the bank.

The estate is to be held intact for a period of 14 years under the control of the Farmers State Bank & Trust Co. As indicated, the bank under the will, is to serve as executor, trustee and also as guardian of the two children of Mr. French who are minor heirs. The trust will continue for fourteen years—that is, until Ruth Joy French, daughter of the de-

ceased, who is now twelve years of age, has attained the age of twenty six years.

Mr. French owned 600 or more acres of land near Chapin, together with other real estate. His estate includes the controlling interest in the Farmers State Bank & Trust Company and a large amount of other personal property.

The entire document is a matter of public interest and is printed herewith in its entirety:

I, Arthur L. French, of Morgan County, Illinois, being of sound and disposing mind and memory, make, publish and declare the following to be my last will and testament, hereby revoking all former wills and testamentary dispositions by me heretofore made.

It is my will that my just debts and funeral expenses be fully paid as soon after my death as practicable and consistent with the proper and businesslike settlement of my estate.

I give and bequeath to my beloved wife, Ruth Bachelder Joy French, all of my household goods, house furnishings, library, pictures, ornaments, plate, kitchen utensils and household stores contained in my residence near Chapin, Illinois, to have and to hold the same as and for her absolute property.

I give and bequeath to my wife, Ruth Bachelder Joy French, all of my personal effects, such as jewelry, letter files, scrap books and any heirlooms of which I may die seized, to hold for the benefit of my children, the same to be given to them when she shall deem best.

I give and bequeath to my friend, Jeff Duckett, of Chapin, Illinois, all of my guns, fishing rods and tackle, boats, etc., and my membership in the Sand Point Fishing and Hunting Club, in trust, for the benefit of my son, Arthur Joy French, and I ask the said Trustee that, in memory of the many happy days we have spent together afield and in camp, he, as far as he shall be able, without financial loss or neglect of his business, teach my son the proper use of these things, to the end that he may acquire the true spirit of sportsmanship and a love for all manly outdoor recreation.

All the rest and residue of my estate, of whatever kind or nature, and wheresoever situated, I give, bequeath and devise unto my said wife, Ruth Bachelder Joy French, and The Farmers State Bank and Trust Company of Jacksonville,

Illinois, as Trustees, upon the trusts following, to-wit:

First upon trust:—To handle, manage, operate and control, as nearly as may be, in the manner in which I have been accustomed to handling, managing, operating and controlling the same.

They shall have the power to sell all of my real estate, provided, however, that none of my real estate lying in Section Two (2), or in Section Eleven (11), Township Fifteen (15), North, Range Twelve (12), West of the Third Principal Meridian, in Morgan County, Illinois, shall be sold for a less valuation than Five Hundred Dollars (\$500.00) per acre.

My Trustees may, in their discretion, sell building lots off of said last mentioned lands at a rate of valuation of Five Hundred Dollars (\$500.00) per acre, or in excess thereof. They shall have power to sell my personal property, but in no event shall my Trustees sell the stock which I own in The Farmers State Bank and Trust Company, so as to surrender the controlling interest in said Company, and I expressly will and direct that my said Trustees shall retain the controlling interest in the stock of said institution. In case of the sale or sales of any of my real or personal estate, my said Trustees shall have the power and authority to make, execute, acknowledge and deliver all necessary and proper conveyances and other instruments for the completion of such sale or sales, and to do and perform all things whatsoever necessary and proper in and about the handling, managing, operating and controlling my said estate.

In making and completing sales thereof, without having to resort to the courts for advice or instructions in the premises.

They shall also have the power and authority to invest and reinvest the proceeds arising from the sale or sales of my real estate or personal property and all other funds belonging to my estate; to receipt for moneys, and to release, satisfy and discharge of record mortgage and other liens.

I desire and direct my said Trustees in the investing and reinvesting of funds belonging to my estate to make investments only in first lien real estate mortgages on farm lands in Illinois, or in State, County, or Municipal Bonds of this State of approved character.

Second upon trust:—To pay the annual taxes and all other lawful charges upon my estate; to pay the cost of insurance, all necessary expenses or needful repairs; any improvements necessary for the proper handling of said business and estate; to pay the annual interest on any obligations remaining unpaid, if there be any such; to renew any such note, notes or other obligations remaining unpaid, if any, and fully and completely to handle, manage, operate and control my said property and estate.

In the event I shall owe any debts at the time of my death which my personal estate, exclusive of the controlling interest in the stock of The Farmers State Bank and Trust Company, which controlling interest I expressly direct shall not be sold, shall be insufficient to pay, I desire that my Trustees shall apply such portion of the net annual income from my estate as in their discretion shall seem to be best under all of the circumstances until all of my debts shall be fully paid.

Third upon trust:—To permit my said wife, Ruth Bachelder Joy French, for and during the term of her natural life, to use, occupy and enjoy my residence, with its appurtenances, as a home, said residence being designated on the plat of my farm near Chapin, Illinois, hereto attached and made a part hereof, by the numbers One (1), Two (2), Three (3), Four (4), Five (5), Six (6), Seven (7), and Eight (8), and being located North of the Mercedosa road and East of the Chicago Burlington and Quincy Railroad near Chapin, Morgan County, Illinois.

In the event my said wife should decide to reside elsewhere than in my said described premises, then my Trustees shall handle said residence, with its appurtenances, in the same manner as they handle and operate the balance of my lands.

Fourth upon trust:—To pay over to my said wife, Ruth Bachelder Joy French, for and during her natural life, One-half (½) of the net annual income of my estate, and I expressly will and direct that said One-half (½) of said net annual income shall be paid

to her personally and not upon any order, verbal or written, and that neither the principal of said trust fund, nor the income thereof, while in the hands of my said Trustees, shall be made liable for the payment of any debt or obligation whatsoever of my said wife, either heretofore contracted or incurred by her, or that may hereafter be contracted or incurred.

Fifth upon trust:—During the minority of my son, Arthur Joy French, to pay over to his legal guardian One-fourth (¼) of net annual income of my estate.

After my said son shall have arrived at the age of Twenty-one (21) years and during the life of my said wife, to pay over to my said son, Arthur Joy French, said One-fourth (¼) of said net annual income of my estate. In the event of the death of my said wife before my daughter, Ruth Joy French, shall attain the age of Twenty-six (26) years, then after the death of my said wife, and until my said daughter shall arrive at the age of Twenty-six (26) years, or if she should die before arriving at the age of Twenty-six (26) years, then until the date when, had she survived, she would have attained the age of Twenty-six (26) years, to pay over to my said son, Arthur Joy French, said One-fourth (¼) of said net annual income of my estate, and I expressly will and direct that said One-fourth (¼) of said net annual income of my estate be paid to the legal guardian of my said son during his minority, and after he has arrived at the age of Twenty-one (21) years to my said son in person and not upon any order, verbal or written, and that neither the principal of said trust fund, nor the income thereof, while in the hands of my Trustees, shall be made liable for the payment of any debt or obligation of my said son, Arthur Joy French.

Sixth upon trust:—During the minority of my daughter, Ruth Joy French, to pay over to the guardian of my said daughter One-fourth (¼) of the net annual income of my estate.

After my said daughter, Ruth Joy French, shall have attained the age of Eighteen (18) years and during the life of my said wife, to pay over to my said daughter One-fourth (¼) of said net annual income of my estate. In the event of the death of my said wife before my said daughter shall have attained the age of Twenty-six (26) years, then after the death of my said wife and until my said daughter shall arrive at the age of Twenty-six (26) years, to pay to my said daughter One-fourth (¼) of said net annual income of my estate, and I expressly will and direct that said One-fourth (¼) of said net annual income of my estate shall be paid to the legal guardian of my said daughter during her minority and after she has arrived at the age of Eighteen (18) years, to my said daughter in person and not upon any order, verbal or written, and that neither the principal of said trust fund, nor the income thereof, while in the hands of said Trustees, shall be made liable for the payment of any debt or obligation of my said daughter, Ruth Joy French.

Seventh upon trust:—When my said daughter, Ruth Joy French, shall have arrived at the age of Twenty-six (26) years, if my wife shall have died before that time, but if my said wife shall be living when my said daughter shall attain the age of Twenty-six (26) years, then upon the death of my said wife, I desire and direct my Trustees to pay to my son, Arthur Joy French and to my daughter, Ruth Joy French, all of the principal of my estate, share and share alike; but it is my will and I direct that my said son, in order that he may choose his life work, in the event he shall decide to reside in this county, and shall desire to engage in the business of farming, or that of banking, shall have the right to elect whether he will take the greater portion of his share of the property in land or in personal property, it being my purpose to give my son the opportunity, if he shall determine to make his home here, to take up the business of banking or that of farming, and I accordingly desire, so far as may be, that my Trustees shall so handle and administer my estate that this option of election between the two classes of property belonging to my estate may be kept open to my said son until the period of distribution.

I especially desire that my son and daughter arrange the division of my property without the aid or interference of anyone else, but in the event of disagreement between my son and daughter respecting the division of my property and estate, then I desire and direct that Three (3) disinterested men shall be selected, one by my son, or in the event of his death leaving an heir or heirs of the body of such decedent surviving him, then by the legal guardian of such heir or heirs of the body of such decedent; one by my daughter, or in the event of her death leaving an heir or heirs of her body surviving her, then by the legal guardian of the heir or heirs of her body surviving her, and that the Two (2) men so chosen and selected shall select a third, and the Three (3) so chosen and selected shall act as appraisers and arbitrators between my son and daughter, if living, or the heir or heirs of the body of either of them who may have died prior to the date of such distribution, to make a just, true and equitable division of my property and estate, share and share alike, between my said son and daughter, or, if one be dead, between the survivor and the heir or heirs of the body of such one of them as may have died.

In the event of the death of either of my children leaving no heir or heirs of the body of such decedent surviving, then the share of my estate which my deceased child would have received, if living, shall go to and be paid over unto my surviving child at the date provided for the distribution of

my estate, and such surviving child shall receive the income thereof in the interim preceding said date of distribution.

Motive Power vs. Horse Power

In the beginning of the automobile industry the majority of the people said that the horse and buggy were good enough. But! The horse and buggy is more of a novelty now, than the automobile was then. So also, the horse power farming way is getting to be as slow a way of farming as is the horse and buggy way of travel. Motive power is taking the place of horse power very fast, and the only way to keep up with the procession is to get into the band wagon, buy a Fordson Tractor outfit and take the lead. Farmers are doing it all over the country. Why not you? You remember you said you would not have a car, but you did? You may have said that you would not have a Tractor, but you will sooner or later, why not now? Listen! A Fordson will do the work of eight of the best horses or mules that you can buy. That is, in the field. Then when it comes to pulley work, your horses cannot do it. Why grow a field of corn worth \$1.50 per bushel and then feed it all out to a lot of horses in order to have them to use another year.

Good business judgment tells you to "cut it out." Buy a Fordson Tractor outfit, something you don't have to feed when it is not working; something that will do more for you than a dozen horses; something that the "hotter it gets" the better it works; something with a Company behind it, that carries a full line of parts to take care of it; something that if it dies, all you have to do is "twist its tail" and it is alive again, and such a thing is a Fordson Tractor, and C. N. Priest, the Ford man is the distributor for your territory and has some in stock and will prove to you what he says.

REO

A Policy That Pays

REO has never been ambitious to make all the motor cars—only the best. From the first, the policy was to make only as many as could be made and be sure that every REO would be as good as the best REO that ever was turned out of the REO plants. That policy consistently adhered to through the many years has resulted in a demand always greater than the possible output of the big REO plants. At this time the over-demand is such that only the alert can hope to be of the elect who will drive REOS. Today—won't be a minute too soon.

Attention—Ford Owners

Have You Seen the F. B. Battery Cover? The F. B. Battery Cover is an absolute essential for the protection of the battery. Without it the top of the battery quickly becomes covered with mud and dirt, which becomes acid soaked, not only causing a leakage of the current and soon runs down the battery, but also causes undue corrosion, disintegration of the terminals and the battery box proper which in a short time absolutely ruins the complete battery.

JOCK HUTCHINSON SETS NEW RECORD IN COMPETITIVE PLAY

Plays Toledo Course in 69 Strokes, Two Strokes Under Par

NO PROMINENT PLAYERS ELIMINATED

TOLEDO, Aug. 11.—More records were set today at the National Open Golf championship, Jock Hutchinson of Chicago, western open champion scoring 33 on the first nine holes of the Inverness Links and 69 for the 18 holes, two strokes below the than previous competitive score and also two strokes under par for the 6,589 yard course while scoring was so good that it required 157 or better to qualify for the 72 hole championship play beginning tomorrow. Usually 35 holes in 160 has afforded entry to the contest 157 being a new low figure.

No prominent tournament player was eliminated however, and most of the amateur contenders remained in competition by comfortable margins.

Hutchinson's 69 with yesterday's 72, allowed his total of 141 to lead the field by several strokes. Jack Burke of St. Paul finishing second with 75-71-146, and Gene Sarazen of Fort Wayne third with 74-73-147.

Harry Vardon of England required 75-78-153 and Edward Ray 80-75-155.

Chick Evans of Chicago, former champion led the amateurs, while Bobby Jones, southern champion had two strokes better than Vardon, his partner. James Barnes of St. Louis cut five strokes off his Tuesday score.

The gallery today again followed Vardon and Jones altho many watched Hutchinson who made his score largely with his driver and mashie, as he missed a half dozen comparatively easy putts. His tee shots were long and straight and his approach were uncanny.

Don't let your sweaters shrink or stretch

YOU can wash your sweaters yourself so that they look like new! The expensive sweater with angora collar and cuffs! The dear little sleeveless slip-on that you knit yourself! Keep them fluffy and new-looking. Wash them in soft Lux suds.

Rubbing soap on woolens and twisting them make them thicken and shrink. Your good-looking sweater suddenly grows far too large and stringy—or ridiculously tight and harsh! But there is no rubbing with Lux. Souse the rich foamy lather gently through and through. Your sweater comes out soft and shapely—the way you bought it.

Your grocer, druggist or department store has Lux.—Lever Brothers Co., Cambridge, Mass.

LUX
For all fine laundering

There's nothing like Lux for keeping sweaters new

To wash your sweater
Whisk Lux into a rich lather in very hot water—two tablespoonfuls to the gallon. Add cold water till the suds are lukewarm. Swish your sweater about in the suds. Wash quickly, pressing the suds through and through. Do not rub. Rinse three times in lukewarm water, dissolving a little Lux in the last water (do not make a lather). This leaves your sweater softer and woollier. Never wring a sweater. Squeeze out the water and spread on a towel to dry in the shade.

The superiority of Nu-Bone Cor-

ence from all others—features
they have which no other corsets
can have. This difference is due
to the Patented Nu-Bone Stay
which is the only woven wire stay
in existence. The machines that
weave the three or five strands of
finest piano wire into the Nu-Bone
Stay are patented, owned and op-

ALL IN READINESS FOR LEGION'S BIG CARNIVAL

Will Open in Zahn's Auto Inn This Evening—Many High Class Attractions.

All is in readiness for the three days indoor carnival which will open in Zahn's Auto Inn this evening. For several weeks various committees of the local Legion post have been working out the program for the carnival.

These committees last night completed their work of placing the Inn in shape for the carnival. The large building has been tastefully decorated and the attractions are conveniently arranged.

One of the features of the carnival is the country store. The Legion has over \$3,000 worth of stock in this store which will be sold advantageously during the three days.

Frank Kirk who has been the headliner with the famous Harvey minstrels the past two years will be seen in his famous musical act each night. Kirk is home for a brief rest and kindly consented to appear for the Legion and to give his home people a chance to see him. He plays all manner of strange instruments which he manufactures himself.

Some excellent boxing exhibitions have been arranged for the occasion. Al Baldwin, local boxer will appear in an exhibition with Pat Walsh of Springfield. Kid Britt and Leo Paxton two local boxers will appear and Young Brakeman and K. O. Johnson will strive for honors.

Among the attractions are. The government war exhibit which arrived last night and has been unpacked and placed in position. Horse show, Big Prog. Oriental show. There are also many other features which will please.

In addition a band will be present every evening and furnish music. There also will be dancing each evening.

As has been stated the local Legion post is endeavoring to raise enough money to build a league home. It is a most worthy cause and every citizen should turn out and help the boys.

In addition to the features enumerated above the management announced that a number of pigs have been donated by farmers and will be given to those holding the lucky numbers. Then the Chevrolet automobile also goes the same way and you may win yourself a ton of coal which will not be bad next winter.

Don't forget the place, Zahn's Auto Inn. Don't forget the time tonight, Friday and Saturday nights.

REACH AGEEMENT-ON R. R. SWITCH PLANS

South Jacksonville Trustees Held Conference With State Officials—Satisfactory Plan proposed for Freight and Coal Haulage.

At a meeting of the trustees of the village of South Jacksonville, E. H. Gray, superintendent of the Jacksonville Railway and Light company, the acting superintendent of the Jacksonville State Hospital and Frank D. Whipp of the state department of public welfare and three associates from the state house, held in the Heintz greenhouse, the question of hauling coal thru South Jacksonville on the street railway was again taken up.

The proposition which the village made to the company in July 1919 and in which they had taken no action was brought up and after some minor changes was resubmitted to the company, by the trustees. This calls for the payment of \$2.00 for each car that is hauled thru South Jacksonville, to the state institutions and the light plant. A switch is to be built near the Vandavia road on the Chicago & Alton right of way.

The trustees of the village are, L. O. Berryman, president, Elmer Beasdale, clerk; O. H. Buhman, W. W. Barr, S. L. Berry, W. D. Megginson, O. B. Heintz and James McGinnis.

Amicable Conference
The conference was an entirely amicable one and it is the expectation that at no distant date the side track will be built and the coal hauling begin as projected. The members of the village board made it plain that they desire to work in co-operation with the City of Jacksonville in this matter, and further, that they realize that the state is entitled to special consideration.

Supt. Gray will refer the proposal to the executive officers of the Railway and Light Co. for approval. If such a switch is built on the south side of the Vandavia road adjoining the Chicago & Alton railway it will be necessary to acquire a piece of land owned by O. F. Buffe. It is the intention of Supt. Gray to have such a trackage arrangement that street railway passenger cars can be placed there and be more accessible to visitors to the park. It is also within the range of possibilities that a plan can be worked out for the extension of the track to a point south of the Vandavia road where a subway can be built under the tracks and permit the movement of the railway cars to Nichols park.

As indicated, the South Jacksonville officials realize that the movement of coal as proposed over the tracks of the railway company will be of great benefit to the City of Jacksonville in removing so much traffic from the street pavements and such removal will no doubt add greatly to the life of the pavements.

If the proposal as made by the village board is entered into, it is Supt. Gray's expectation that a track will be in readiness for use in the course of the next few months.

SMOLDERING FIRES ARE OFFENSIVE

There are frequent complaints now because of persons who thoughtlessly burn leaves or rubbish in the late afternoon hours. This results in a smoky atmosphere which is very annoying, especially to persons who use sleeping porches.

There is a city ordinance covering this matter which makes it unlawful to burn rubbish at the hours indicated. The offenses occur thru thoughtlessness and just a little attention to the subject on the part of the public will give the needed relief.
